

# Biwintech NSD200

BIWINTECH

With a writing speed up to 260 MB/s and the V90 speed class, Biwintech NSD200 is designed for pros and enthusiasts who need 4K/8K UHD video recording and high-speed continuous shooting. It's uncompromising transferring speed of up to 300 MB/s effortlessly saves your time on post-production. Tested in a variety of harsh environment where water, magnetism, shocks, X-rays and other hazards can damage your hard-earned photos or videos, NSD200 goes with you wherever you go and always captures the moment.

## Product Features

### Next-generation UHS-II standard for faster speed

Designed to match your passion for photography, the Biwintech NSD200 delivers the high-performance transfer speed of up to 300 MB/s. The UHS-II standard means much faster and more stable data transfers.

### High-speed continuous shooting

Biwintech NSD200 allows RAW high-speed continuous shooting for those high-speed shots you need to capture all the action. The NSD200's ability to capture RAW and JPEG photos in sync provides your post-processing with more possibilities and creativity.

### 4K RAW video recording

Biwintech NSD200 with top-of-the-line V90 video speed class offers the fastest shooting speeds up to 260 MB/s and will revolutionize your photography and film-making.

### Tested and proven for data security

After a variety of rigorous tests during production, NSD200 cards are proven to be waterproof, anti-magnetic, shock-free, X-ray-proof and high-temperature resistant. You can capture and store your valuable shots without worrying about losing or damaging your photos or videos.

## Biwintech Advantage

BIWIN excels in the field of storage with strong capabilities in product development, hardware design, firmware algorithms, chip packaging, testing and manufacturing for many years. In 2020, BIWIN launched a consumer-grade storage brand -- Biwintech.

Biwintech quality assurance involves the whole process from the development, design, and production to sales to ensure the reliability of each product. Biwintech boasts an excellent worldwide customer service network.

Product Specifications			
Standard	UHS II		
Capacity	64 GB	128 GB	256 GB
Max. Sequential Reading Speed	300 MB/s	300 MB/s	300 MB/s
Max. Sequential Writing Speed	260 MB/s	260 MB/s	260 MB/s
Speed Class	C10, U3, V90		
Dimensions	24.00 x 32.00 x 2.10 mm		
Weight	1.8 g		
Working Temperature	-25 °C to 85 °C		
Storage Temperature	-40 °C to 85 °C		
Shock Resistance	1000 G / 0.5 ms		
Limited Warranty	5-Year		

1. Maintenance and future updates are required throughout product life cycle. Specifications are subject to change without notice.
2. The pictures are for illustration only. Actual product may vary due to product enhancements or changes.
3. Not all products are sold in all regions of the world.
4. Memory card purchase instructions: Please confirm whether your devices are compatible with SD 4.0 before purchase.
5. Please visit [www.biwintech.com](http://www.biwintech.com) for more details.
